A bridge connecting unlimited possibilities within the global demand for high-end financial solutions with easy access crypto world.

Profitability

The 3TON project immediately generates solid operational profits, as well as services that will be included in our portfolio in the future.

Scalability

Our core trading activity is perfectly scalable - the sky is the limit. We also select the spectrum of other sources of income in this regard.

Real business

The 3TON business model is based on real business activities focused cutting-edge technology supported by automation.

Development

We have clearly defined directions for future development to enlarge and diversify sources of income flow.

3TON SOCIAL TRADING PLATFORM

The development and launch of a social trading platform is a big part of the 3TON project.

Platform provides retail investors with a real and significant **investment advantage**. AI 3.0 strategies equalize their chances when confronted with great and technically advanced market players. Our **artificial intelligence model** dynamically manages the portfolio composition, teaching and adjusting its exposures to volatility and market conditions.

The beta version was tested in market conditions generating the expected level of profits.

The trading platform is based on:

Artificial
Intelligence 3.0

Monte Carlo
Backtesting

Smart
Beta

High Frequency
Trading

Big Data
Research

3TON Roadmap

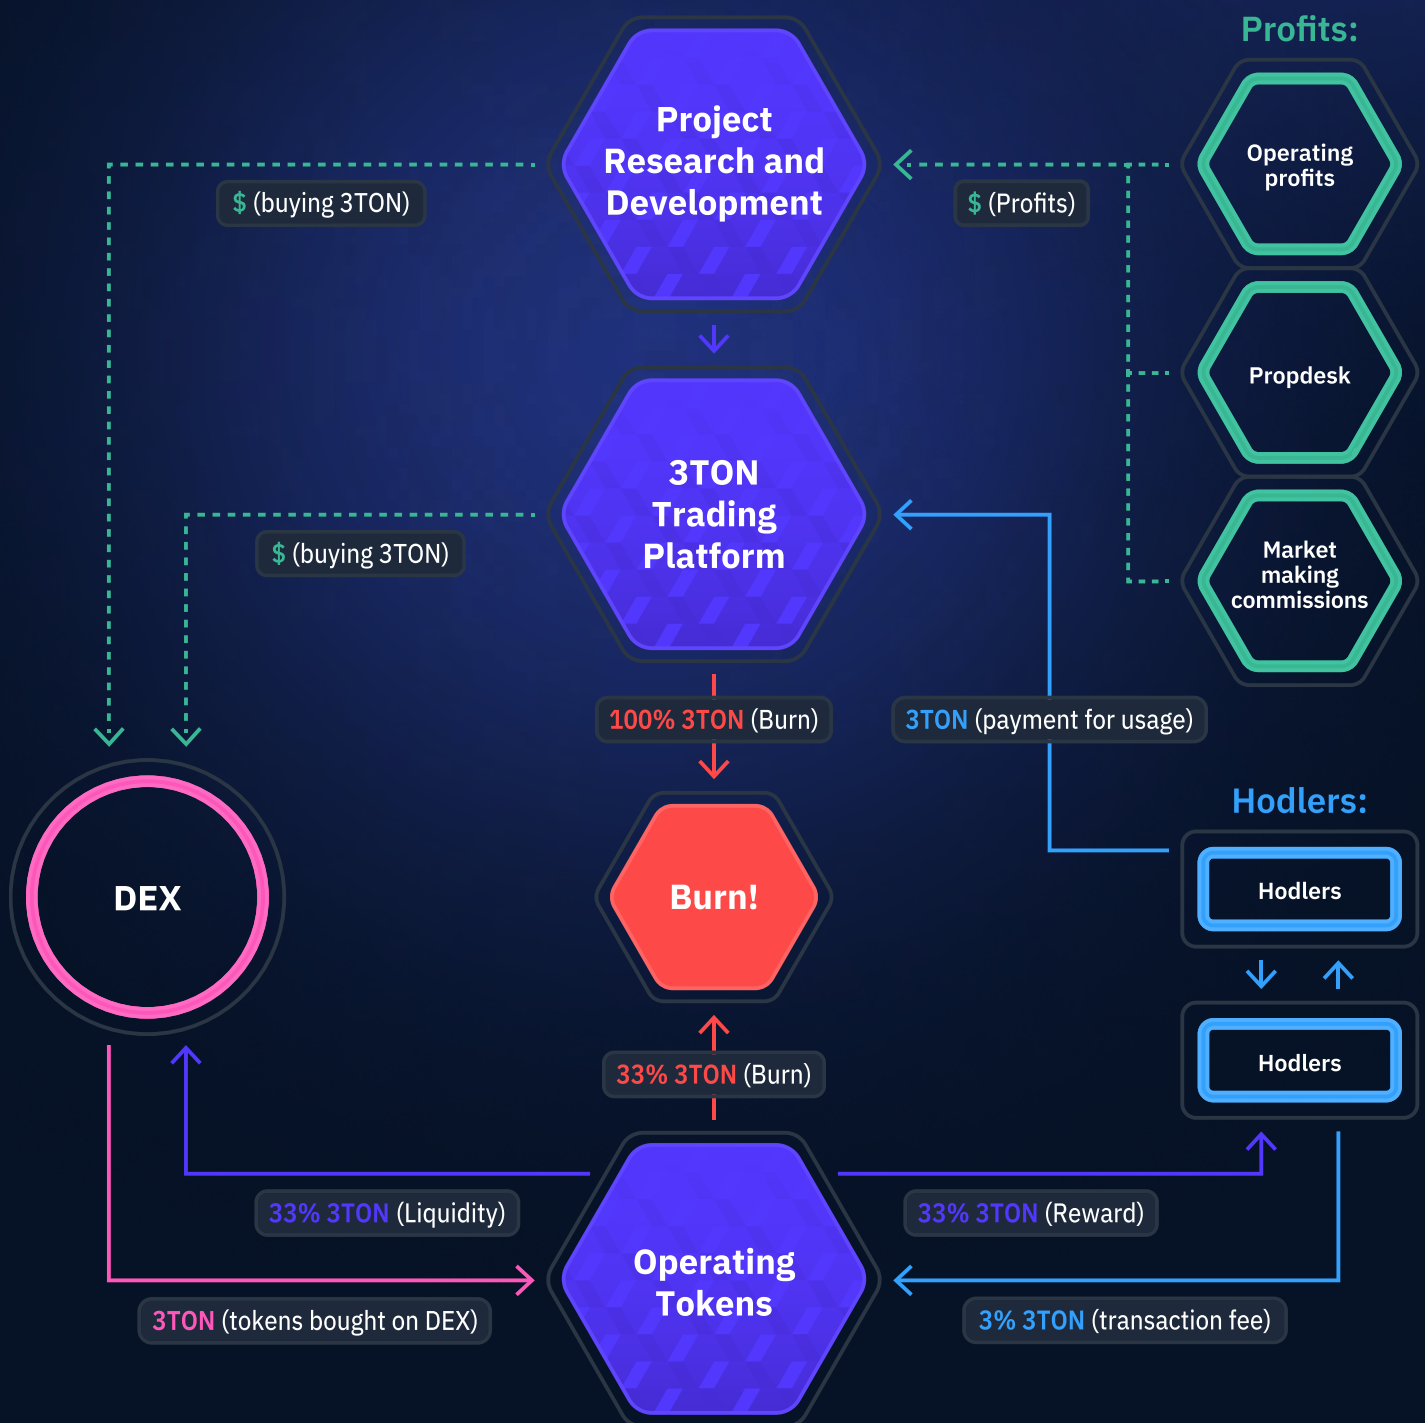

*The modern investment market is a constant arms race. The speed of the **information retrieval technology and response time** has never been so important and crucial to your success. Our goal is to provide our clients and investors with the best solutions connecting both worlds, without compromise.*

Konrad Endruszkiewicz
Chief Technology Officer

3TON TOKEN ECOSYSTEM

The 3TON Token is a unique and the only means of payment in the 3TON environment.

3TON Token has an advanced and well-thought-out ecosystem that defines the circulation of tokens and its burning.

3TON TOKEN GROWTH & STABILITY

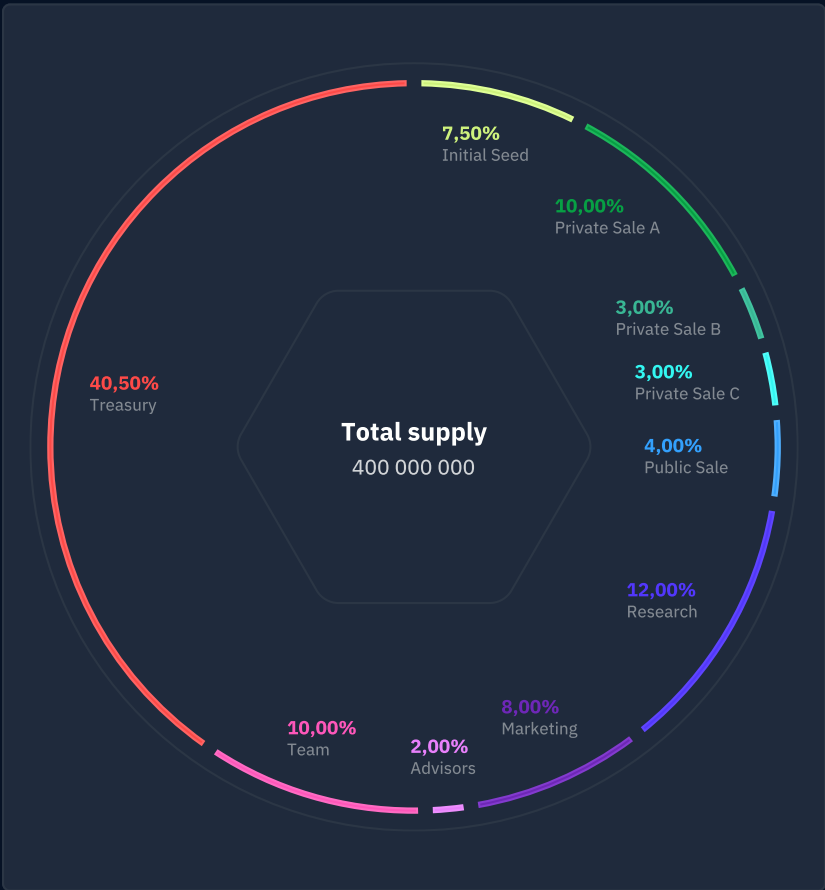

The pillar of the stability of the 3TON Token exchange rate is advanced tokenomics with appropriately selected cliffs and vestings:

Building the value

Cliffs and vestings forces the team to care for building the value of 3TON Project in the long term. Members of the 3TON team can only sell their team tokens in full after 48 months.

Credibility and stability

Advanced tokenomics effectively builds the credibility and stability of the 3TON Project. Clear path of project development leads to companies' Security Token Offering.
